July 18, 2006

To: Libraries, Cities, and Other Civic Presenters,

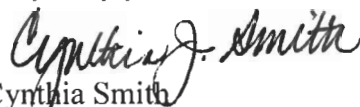

The Folk Collection returned to perform at Escondido Public Library's First Thursday Concert again this June. They performed for us last year for the first time and the audience response was very enthusiastic. This year we advertised their performance and word of their concert spread. Our audience must have been awaiting their return. The June attendance was a standing room only crowd which overflowed our 250 capacity auditorium.

Once again, their show entertained young and old. It was fast paced, upbeat, and humorous, and the audience sang along with many old favorites. The show was so good, and our crowd so pleased, that during intermission, I was asked by many attendees to book them again. At the beginning of the second set, I announced that I had invited The Folk Collection back for the third consecutive year. The crowd responded by enthusiastically cheering!

Needless to say, our audience gave The Folk Collection a standing ovation at the end of the program and the group performed an encore.

I strongly recommend The Folk Collection to other civic organizations and presenters. You will not be disappointed and your audiences will be delighted.

Very truly yours,

Cynthia Smith
