The Folk Collection:

What a terrific show you guys put on for our folks, at our final outdoor concert this season. We "took a chance," because none of us had seen you perform before – and we are so glad we did. We have received many calls from our residents, asking that we bring you back next year. The enthusiasm and enjoyment you displayed during your show was infectious; everybody had a great time laughing at your stories and jokes, listening and singing along.

Cordially,

Cathy Cronin
