Gentlemen:

Just wanted to express our thanks and appreciation for one hell of a show! As I had mentioned to you, the World Theater has never presented any type of folk music presentation, you were the first and needless to say, you will not be the last. The staff has already discussed bringing you back and to also look at other folk groups that would be a good fit for us here in Monterey.

Your show was upbeat, soulful and captured the true spirit of the 60's and 70's while maintaining a freshness and contemporary feeling that made everyone feel good. You brought a lump to my throat and touched the heart of our audience. Your harmonizing, musicianship and group dynamics made for a thoroughly enjoyable and entertaining evening. It was amazing to see and hear how so many of the audience knew when and where to clap in time with so many of the timeless classics that you performed so well.

The audience for your show included a large percentage of first time attendees to the World which is always good fortune for us as we continue to develop our presenting program. Thank you again for sharing your artistic gifts with us and we look forward towards hosting you all again in the near future.

Abrazos!
Phil Esparza
